# NISSAN

ACCENT LIGHTING REFERENCE GUIDE

1. Switch Location
° The two button switch, used to control the accent lighting system, is located on the inside front surface of the center console bin.

2. To Turn On/Off Accent Lighting
° Press the "ON/OFF" button.

3. To Change Colors
° Press the "COLOR" button. Pressing the color button will cycle through the 20 colors shown in Table 1.

Table 1

Order	Color Description	Order	Color Description
1	Gray	11	Azure
2	White	12	Blue 2
3	White 50%	13	Med Slate Blue
4	Yellow/Orange	14	Gray/Blue
5	Red/Orange	15	Indigo
6	Red/Orange 2	16	Purple
7	Green	17	Fuscia
8	Green 2	18	Red 2
9	Turquoise	19	Red
10	Blue	20	Brown

4. Demo Mode
° Demo mode will automatically cycle through all 20 colors in the order shown in Table 1.
° To enter demo mode, hold the "COLOR" button for 3+ seconds. To exit, press the "COLOR" button again.
° The color displayed when exiting demo mode will remain the current color.
° Demo mode will remain on until the "COLOR" button is pressed to exit.

5. Vehicles with Meter Dimming
° The accent lighting will default to full brightness when dimmed all the way down to 0. To turn off the accent lighting in this situation, press the "ON/OFF" button.

6. Operation
° The vehicle ignition must be in the accessory or on position, or the room lamp must be on, for the accent lighting system to operate.
